

SahaManthran

Co-creating Unique Solution to Vitalize Healthcare

About SahaManthran

SahaManthran is more than a healthcare consulting organization—it is a collective vision of experts, innovators, and change-makers committed to reimagining healthcare systems through collaboration, compassion, and sustainable impact.

The essence of our name reflects our philosophy: 'Saha' symbolizes togetherness and partnership, while 'Manthran', inspired by Manthan' and Manthan, represents thoughtful discussion, strategic deliberation, and transformative thinking.

Together, 'SahaManthran' embodies our commitment to co-creating meaningful and sustainable healthcare solutions through shared wisdom and collective expertise.

Key Highlights

Established in **2016**

Over **250+** Years of Collective Experience

Nearly **30%** of Clients Collaborate with Us Repeatedly

Over **50%** of Our Workforce Comprises Women

Diagnose

We analyze challenges deeply to uncover the real issues.

Discuss

We engage in meaningful conversations to align perspectives.

Deliberate

We deliberate with insight to co-create the right solutions.

Demonstrate

We demonstrate the solution through a proof of value.

Deliver

We deliver impact that drives sustainable excellence.

OUR PORTFOLIO

Co-creating Unique Solution to Vitalize Healthcare

PROGRAM ADVISORY

Public Policy Research

Generating evidence-based insights to inform effective policies and decisions

Public Health & Nutrition Program Management

Designing, implementing and managing programs that improve health and nutrition outcomes.

Formative Studies

Conducting in-depth studies to guide program design and strategy development.

Impact & Value for Money Assessment

Assessing impact and value to ensure efficient use of resources and maximum outcomes.

Monitoring & Evaluation

Tracking progress and evaluating results to drive accountability and continuous improvement.

PROJECT ADVISORY

Functional Design Support

Delivering efficient and practical functional solutions aligned with your project goals.

Architectural Planning & Designing

Creating innovative and sustainable architectural designs that add value and enhance spaces.

Project Management & Commissioning

Managing projects end-to-end and ensuring smooth commissioning for operational readiness

Equipment Planning & Management

Planning, procuring and managing the right equipment to ensure performance and efficiency.

Transaction Advisory & Contract Management

Providing expert advisory and managing contracts to protect your interests and maximize value

OUR PORTFOLIO

Co-creating Unique Solution to Vitalize Healthcare

ENTERPRISE ADVISORY

Idea Incubation & Start-up Management

Transforming innovative ideas into viable and scalable businesses.

Product Patents & IPR Support

Securing intellectual property and protecting your innovations.

Market Assessment & Expansion

In-depth market insights to identify opportunities and drive growth.

Strategic Planning & Business Modelling

Building robust strategies and models for long-term success.

Financial Planning & Development of Business Road Map

Creating financial strategies and roadmaps for sustainable growth.

Commercialization of Product

Bringing products to market efficiently and maximizing impact.

OPERATIONAL ADVISORY

Technical HR Hiring & Management

Finding the right talent and managing people for organizational success.

Process Improvement & Accreditation

Optimizing processes and ensuring compliance with quality standards.

Training, Capacity Building

Developing skills and capabilities to build a high-performing workforce.

Performance Audit

Evaluating performance and identifying opportunities for continuous improvement.

Operational Risk Assessment & Establishment of Decision Support System

Identifying risks and enabling data-driven decisions for better outcomes.

OUR FLAGSHIP PROGRAM

DIYA

Do It Yourself Accreditation

Your Facility, Your Pace. Our Guidance

What is DIYA?

DIYA (Do It Yourself Accreditation) is a structured, self-paced accreditation support program designed to help healthcare organizations confidently achieve NABH accreditation and quality compliance at their own pace.

By combining expert guidance, practical tools, ready-to-use templates, and step-by-step implementation support, DIYA enables small hospitals and clinics to establish robust quality systems without excessive dependence on external consultants.

The program makes accreditation practical, affordable, and sustainable.

- ✓ **Practical**
- ✓ **Affordable**
- ✓ **Sustainable**

Why Accreditation Feels Out of Reach

Many healthcare facilities recognize the value of NABH accreditation, yet the journey often appears overwhelming. Common challenges include:

-  1. Complex Accreditation Requirements
-  2. Heavy Documentation Requirements
-  3. Limited In-House Quality Expertise
-  4. High Cost of Traditional Consulting
-  5. Fear of Assessment and Non-Conformities

The Reality

Accreditation is not out of reach.

With the right guidance, structured tools, practical templates, and step-by-step support, healthcare facilities can successfully build quality systems and achieve accreditation in a cost-effective and sustainable manner

**This is exactly the gap that
DIYA – Do It Yourself Accreditation
is designed to address**

WHO SHOULD CHOOSE DIYA?

SMALL & MEDIUM HEALTHCARE FACILITIES

- + Clinics and healthcare centers
- + Small hospitals and specialty facilities
- + Nursing homes with fewer than 50 beds

DOCTOR-LED ORGANIZATIONS

- + Facilities managed by one or two doctors
- + Organizations seeking a structured quality roadmap

FACILITIES WITHOUT A DEDICATED QUALITY TEAM

- + Healthcare organizations lacking full-time quality professionals
- + Teams requiring practical accreditation guidance and implementation support

ORGANIZATIONS FACING ACCREDITATION CHALLENGE

- + Facilities finding accreditation complex, expensive, or documentation-intensive
- + Healthcare organizations simplified and guided compliance approach
- + Organizations committed to quality improvement but needing a clear implementation pathway

Empowering Healthcare Organizations to Build Quality.

Achieve Accreditation. Deliver Excellence

COMPREHENSIVE DIYA TOOLKIT

Co-creating Unique Solution to Vitalize Healthcare

The DIYA Program provides a complete set of practical resources, templates, and implementation tools designed to simplify the accreditation journey and enable healthcare facilities to build sustainable quality systems independently
